<b>Profile of the programme</b>	<p>Do you have a book, poetry anthology or play inside you, just waiting to be written? Tony Morrison once said, "If there's a book that you want to read, but it hasn't been written yet, then you must write it." If you would like to, but don't know where to start, this minor is for you!</p> <p>The Art of Writing minor is for anyone who wants to develop their English writing skills, their creative process and their critical thinking abilities. With courses such as Fiction writing, Nonfiction writing, Poetry- and Script writing, you will be challenged to learn about and try your hand at characterisation, world building, storytelling, poetry analysis, dialogue writing and much more.</p> <p>In a group of fellow aspiring writers, sessions will be led by experienced and knowledgeable teachers to explore existing literature and learn from the best. Through a series of lectures, workshops and feedback sessions, you will learn to understand contemporary literature, apply that understanding to your own practice and critically edit your work in order to clearly express your ideas and possibly even to prepare for publication.</p> <p>Writers, be the first to delve into the Art of Writing and join us in 2020!</p>
